New era of virtual education & training.

VIRTUAL LEARNING

High quality programs for students, Educational Technology Consulting Services, Customized Consulting for Government Entities, Schools, Organizations, & Companies.

TRAINING PROGRAMS

Training & expert consultation on the use of technologies for educational use in face-to-face, blended, online including mobile and for use in reaching underserved audiences.

DESIGN & DEVELOPMENT

AICI assists in the development, design and management of virtual learning environments and platforms. Managing quality control and tailoring modern program curriculums.

ABOUT US

PAST PERFORMANCE

American International Cyber Institute (AICI) is a certified minority business enterprise and women owned business that provides- in conjunction with its school partners- local, statewide, national, and international virtual and cyber education programs that are K-12 and American U.S. High School Diploma equivalent for young students who seek an innovative approach to education and adults who did not complete their traditional high school education. Our programs also apply to individuals currently enrolled in Secondary programs internationally.

Our programs include Virtual/Cyber Learning Environment- Design & Management, Competency-Based Learning to Support Human Resources Organizational Structures, Curriculum Design & Instructional Design, Project & Performance Management and Education & Technology Consulting.
